TECHNOLOGY AND BUSINESS COME TOGETHER

 **19TH MARCH**

 **23TH MARCH**

ACADEMIC AGENDA

HOUR	COMPANIES	TOPIC
9:00 a.m. - 9:45 a.m.	 precision farming solutions	Precision agronomy - tools and techniques
10:00 a.m. - 10:45 a.m.		Post harvest storage and processing systems for tropical markets
11:00 a.m. - 11:45 a.m.		How better fertilisers can improve yields

HOUR	COMPANIES	TOPIC
9:00 a.m. - 9:45 a.m.		Drones for Precision Agriculture & Forestry
10:00 a.m. - 10:45 a.m.		Improving sustainability and welfare with mastitis diagnostics
11:00 a.m. - 11:45 a.m.		The future of agriculture is not to replace humans, but empower them with robotics

 **24TH MARCH**

HOUR	COMPANIES	TOPIC
9:00 a.m. - 9:45 a.m.		Parametric insurance
10:00 a.m. - 10:45 a.m.	 AgriSound	Benefits of IoT technologies to support beekeeping and pollination services
11:00 a.m. - 11:45 a.m.		Bringing connectivity and information to smallholder farmers

 **25TH MARCH**

HOUR	COMPANIES	TOPIC
9:00 a.m. - 9:45 a.m.		Sensor to satellite low power connectivity for agritech
10:00 a.m. - 10:45 a.m.		Monitoring crop health and predicting yield using inexpensive satellite data
11:00 a.m. - 11:45 a.m.		Insect-based bioconversion of waste
